LIFE PILLS, AND PHŒNIX BITTERS.

J. MOFFAT'S Medical Office, 546 Broadway,

Have long been known and appreciated for their extraordinary and immediate powers of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

In many hundreds of certificated instances, they have even rescued sufferers from the verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, and without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved that it has appeared scarcely less than miraculous to those who were unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigour, that they were indebted for their name, which was bestowed upon them at the spontaneous request of several individuals whose lives they had obviously saved.

The Vegetable Life Pills and Phœnix Bitters have in all cases proved superior to every other medicine in the cure of Dyspepsia, loss of appetite, Flatulence, Costiveness, Piles, Stomach and Liver complaints, Chronic and inflammatory Rheumatism, Apoplexy, Palsy, Nervous disorders, tic douloureux, determination of blood to the head, palpitation of the heart, inveterate sores, colds, Influenza, Fever and Ague, Bilious affections, jaundice, &c.

The Life Pills and Phœnix Bitters remove almost imperceptibly, all noxious accumulations from the stomach and bowels, and all impurities from the blood, imparting life and vigour at the same time, to every part of the system, and thus restore the energies of both body and mind. Used as a cathartic they prevent or remove diseases in their forming stages, as an alterative they may be taken at any time, as they do not contain mercury or any ingredients that require confinement or restriction of diet. In confirmation of these facts, reference can be had to testimonials which must prove satisfactory to every candid mind, on application at *Moffat's Medical Office, 546½ Broadway*, where the CELEBRATED LIFE PILLS and PHŒNIX Bitters may be obtained wholesale and retail, at his Medical Office, No. 546½ Broadway. The retail price of the LIFE PILLS is 25 cents per box, or, in larger boxes, at 50 cents, and one dollar. The PHŒNIX BITTERS are sold in bottles at one and two dollars each. Remember 546½ Broadway.

THE PASSION FLOWER.

189 BROADWAY,

NEW-YORK.

"A monthly periodical with the above title, is published in the CITY OF NEW-YORK, and edited by Miss *Anna Johnson Reid*, a young lady of great merit, and, as is proved by her sweet and interesting work, of brilliant genius and classic taste. Among her patrons, she numbers many of the first men in the Union, some of whom, in addition to their subscriptions, have given her written testimonials of their approbation of her captivating labors. Among her subscribers are the names of the late Chief Justice Marshall, the Vice President, Hon. Morgan Lewis, Bishop Onderdonk, and others equally distinguished. Its good name has even found its way across the Atlantic, and extorted praise from the lips of Royalty.

"The *Passion Flower*" is printed on beautiful fine paper, in clear bold type, is fancifully bound in red morocco and gilt; contains 96 pages, forming 1152 pages in the year, and may be said only to be excelled in its mechanical execution, by the chaste and splendid talents of its highly gifted Editress.—*From the Baltimore Farmer and Gardener.*

"The *Passion Flower*," for June, forming the XXVI. Number of Miss Anna J. Reid's delightful little publication, was issued several days ago, and continues to improve in appearance as well as in public favor. The reading matter is most excellent; and we find the Philadelphia press is speaking of this number, in connection with the whole series, as entitled to unqualified praise. If its wide-spread circulation among the most respectable and talented circles of our country may be taken as the criterion of its worth—and we think it should—then is the *Passion Flower* based upon enduring grounds, for it is patronised by nearly all the magnates of the Union, and the list is constantly gaining valuable additions.—*New-Yorker*, 1836.

Terms, \$5 per annum in advance.

S. C. REID publisher, 189 Broadway.

LAFAYETTE

BURR MILL-STONE MANUFACTORY.

William Tyack has been in the habit of going to France annually, and selecting the blocks at the quarries with his own hand, personally ; it insures to the Burrs of his Manufacture, a decided preference over the blocks imported by merchants to order, who are not, nor can they be, accurate judges of the article, unless they manufacture them.

Persons giving orders for Burrs, are requested to be very particular in stating whether they are wanted for all kinds of Grain—say country work generally—or for flouring alone, as it is of the utmost importance that the temper of the Burr should correspond with the kind of Grain to be manufactured.

W. T. having had considerable experience in Mills, is well aware of the great importance of having Burrs made in the most faithful and perfect manner.

This very valuable article, although it has been many years in use in this country, yet its qualities in its perfect state are but little known, owing to the defect in the materials and workmanship.

They will be made to order, and forwarded to any part of the United States or the Canadas, warranted, with my name on them.

Millwrights, Millers, and Gentlemen who are judges of the article, are invited to call at No 240 Washington-street, corner of Robinson, and examine the materials and workmanship.

Dutch Bolting Cloths from the most approved manufactories in Holland, Esopus and Cologne Stones, also Mill Irons, wrought and cast of any pattern, furnished at the shortest notice.

Spindles, Hoisting Screws, Gudgeons and Wheels for Grist-Mills, Cranks, Stirrups, and Pitmans. Castings and Wrought Iron Work for Saw Mills.

Screws for pressing Paper, Hay, Oil, Tobacco, Cotton, &c., of all sizes. All kinds of Mill-Work furnished by him as Agent, in all the above branches—will be stamped, warranted and sold at fair prices.

ENTERED according to Act of Congress, in the year 1836, by
THOMAS LONGWORTH, in the Clerk's Office of the District Court
of the Southern District of New-York.

BANKS IN THE CITY OF NEW YORK.

PROHIBITION OF SMALL NOTES.

The circulation prohibited, within this State, of bank notes of less than two dollars after the 1st September 1835; three dollars after the 1st March, 1836; five dollars after the 1st September, 1836; nor of any denomination for a sum between five and ten dollars.—(Passed March 31, 1835.)

Penalty five times the nominal value of the bill with costs, to be received for the benefit of any person prosecuting.

Thirty days after date of this act no bank shall issue any bill less than two dollars; after the 1st September, 1835, shall not issue any bill under three dollars; after the 1st March, 1836, shall not issue any bill under five dollars, never to issue any between five and ten dollars under penalty of one hundred dollars.

The interest for discount in the banks in this city is fixed at 6 per cent. per annum, upon notes or bills not having more than 60 days to run. Three days of grace are allowed, and the discount taken for the same. Upon notes or bills having more than 60 days to run, 7 per cent. is taken.

Bills or notes lodged at the banks for collection, will be noticed for payment, and money collected free of expense. In case of nonpayment and protest, the charge of protest must be paid by the person lodging the bill.

FIREMEN'S GUIDE.

The City is divided into Five Districts, which are pointed out by the bell as follows:

1st district—one stroke of the bell.

2d district—two strokes of the bell.

3d district—three do. do.

4th district—four do. do.

5th district—a continual ringing.

The First District is comprehended by a line from the foot of Murray-street to the City-Hall, and in a line from the N. W. corner of the City-Hall, parallel with the North River to Twenty-first-street.

The Second District is bounded by the latter line, and a straight line from the City-Hall to Avenue 3d at Twenty-first-street.

The Third District is bounded by the latter, and a line from the City-Hall to the East River above the Dry Dock.

The Fourth District is bounded by the latter, and comprehends all the space between that and the East River, as far down as Frankfort-street.

The Fifth District is all that part of the city below Frankfort and Murray-streets.

LONGWORTH'S
NEW-YORK DIRECTORY,

FOR THE

61st year of American Independence.

The lanes, alleys, slips, &c. are always expressed ; the word *street* is not expressed, but understood—mind this ;—so also the word *store*, or counting-house ; the place of business is named first, then the place of residence.

h. stands for house—n. near—c. corner.

IMPORTANT OBSERVATIONS TO THOSE
USING THIS WORK.

Throughout this Directory the christian names, of those where there are more than one of the same surname, are alphabetically arranged. The firms are always placed at the last of those of the same name : when females are known to be widows, they are so designated, and placed immediately preceding the firms in correct arrangement ; and a strict alphabetical arrangement (carefully conformable to the proper spelling of the name) is scrupulously observed throughout the work.

The residence of persons in Hudson-square is clearly designated by the number and the name of the street fronting that square : the directions are plain, intelligible to the point, and such as they ought to be. The numerically named streets are particularized thus : No. 77 Sixteenth (street) n. Avenue 9th ; a figure being always used to designate the name of the Avenue, but figures are not used to designate names of streets ; and the printing is always thus—Avenue B, Avenue C, Avenue 6th, Avenue 3d ; but it never is 3d Avenue, or 6th Avenue. These rules are strictly observed in the printing, and if they are regarded by those using the work, no misapprehension can result.

In searching for a name, the inquirer must know the proper spelling : a person seeking for ——— Lawrance will

not find the one sought for if he take the direction appended to — Lawrence : so also, for — Harison, he should not seek among the Harrison : for — Neilson, he should not look for — Nelson. The peculiarities and variations of spelling names are numerous : e. g.— Bogart, Bogert—Curtis, Curtiss—Downes, Downs—Fagan, Fegan—Hallstead, Hallsted, Halstead, Halsted—M'Kay, Mackay—Pearson, Pierson, Pirsson—Pairce, Pearce, Pearse, Peirce, Persse, Pierce,—Sandford, Sanford—Slason, Slauson, Slawson, Slosson—Tallmadge, Talmage—Walsh, Welch, Welsh—Weise, Wise—Wescot, Wescott, Westcott—Whittelsey, Whittlesey—and others to a great number.

The cause of all *charges* of inaccuracy in this work, 99 times in 100, is attributable solely to the want of a knowledge of the correct spelling of the name sought for ; therefore, *you must know how to spell the name*, or else do not censure the publisher if you do not find it.

Observe, that the U and V are not interchangeably arranged, but the U takes precedence.

Any person who actually finds, or thinks that he has found an error or omission, is most earnestly requested to give intelligible notice to the Editor.

THE Price of the Directory is limited to
THREE DOLLARS.

In consequence of the unsettled state of the *First ward*, it was deemed to be judicious to allow more time than usual for collecting the Names for the Directory; the publication of the Book, therefore, has been somewhat delayed.

The address to each name is printed conformably to the directions received from those persons who have made arrangements to re-occupy stores or offices within the limits of the *burnt district*.

The operations and expenditures attending the publication have been considerably increased; but the Editor presumes not to say that any improvements have been made in the work; its principles being determinative, susceptible of no change or variety, its professed value and importance consist only in its degree of accuracy; and in the present state of affairs, produced by the conflagration, human powers and ability could not secure the usual degree of accuracy which has hitherto characterized this work; but unremitting watchfulness has been exercised during its progress and completion, and if any imperfection exist let it be noted—

Several persons have not yet determined upon the places which they may occupy for the season;—these cases, however, are too few to diminish confidence in the correctness of the Book, and the Editor trusts that it will prove far more valuable than any previous volume. In order to render it such as it ought to be, he has not counted the cost; he, therefore, calculates upon the disposal of the entire edition, which he is now induced to anticipate will be insufficient to meet the demands of the public; those, therefore, who may intend to possess the Book should make prompt application, not waiting for notices complimentary in the columns of the daily newspapers, the proprietors of which have to pay full price for any copy which they may possess, and it cannot be expected that they should commend the merits of any work for which they have to pay—no instance of the kind being on record. Every copy of the last edition was sold at the retail price; every copy, *save one*, was paid for, and the proprietor of every respectable daily newspaper, *save one*, being a purchaser—this is an occurrence without parallel in the history of the LITERATURE of the country.

The authorities or powers controlling the affairs of the Post Office Department in this city, having declined to furnish the information usually inserted in the Directory

the times of arrival and closing of the mails, is therefore, omitted; this omission is of no disadvantage—the details having been furnished, during some few years past, in a manner too imperfect and confused to render it of any available use to the public.

The Editor desires to express himself explicitly upon one point; in 1835 he published a Directory, in 1836 he issued a Supplement containing nearly one thousand names, the changes in which were mostly caused by the great conflagration; for the pamphlet he charged the sum of twenty-five cents: very few bought it; some refusing for the reason that they considered themselves entitled to the Supplement GRATUITOUSLY, because they had purchased the previous Directory:—————

—————he who presumes to think that the Editor is under any obligation to the purchaser, is requested to keep his money and leave the Book in the hands of the publisher:—he who buys the Book is acquitted from all pecuniary obligation; receiving the price demanded, the publisher can require no more; but he requests that no man will become a purchaser who does not consider the Book itself to be richly worth the price charged: that it will prove so this year is confidently expected by the Editor, who has exerted himself with unqualified entireness to make it valuable to the public at large—to those who buy the Book, and even to those who come under the unenvied character of habitual Borrowers: the Editor here respectfully remarks, that his denunciation of Borrowing is directed against the wealthy portion of his fellow citizens, those beings who ride in their own carriages, and yet daily use a borrowed Directory.

In the year 1833 the Publisher of this work was, by civil process issued by the U. S. Government, ejected from his then agreeable situation at the corner of Pine and Nassau-streets: he thereupon located himself in the pleasantest office in the first ward, from which he has been expelled by the uncommonly high rents charged in that section of the city: he has now retreated to the vicinity of the various Philanthropic Institutions of the present times, ————— where all those who are zealously exercised in promoting the reformation of their fellow creatures are invited to demonstrate their own personal sincerity in the cause of moral honesty by the purchase of the “New-York City Directory:” here he has engaged a lease of his present very eligible premises, which are of admirable arrangement and convenience for any reputable occupancy, and sufficiently substantial for any kind of business, and from which he is not disposed voluntarily to retire, without being reasonably compensated for his interest therein; he considers himself entitled to a prominent situation in this neighbourhood, for in the History of Public Benefactors the name of the Editor should take undisputed precedence; as it may be assumed that at least five thousand persons, daily, from year to year, reap decided benefit from the use of the New-York City Directory, without any remuneration therefor being obtained by the Editor!

The number of new names contained in the present, which are not in the preceding volume, is about nine thousand.

The removals and alterations amount probably to about twelve thousand.

In resuming his labours for the present year the Editor admits he has been impelled by the power of those feelings and considerations which constrain us to submit to the influence of habit—and, perhaps, interest: as to his future course, time and circumstances must determine whether he shall continue his servitude for the public good and convenience, or select some other occupation.

It was the Editor's intention to have published the Book on or about the 20th instant. He is now content that the progress of printing the work was so impeded, by circumstances which he could not control, as entirely to defeat his calculations: more despatch would have led to the destruction of two-thirds of the edition, which would, in that case, have been in the Bookbinder's establishment which was entirely consumed by the late fire in Gold-street.

In other respects the delay has incommoded the Editor more than the Public; his operose duties have been augmented; his convenience, his ambition, and perhaps his interest are affected: no man could be more gratified than himself if the Book could possibly have been published earlier, if every copy were now sold, and the proceeds thereof now held by him in an undoubted state of incolumity.

RUNNER'S VADE MECUM:

Comprising an extended list of all the streets, lanes, alleys, and slips, in the city, as in the year 1836.

Showing their commencement, progress, and termination, with the numbers of the houses at each corner, enabling a person to ascertain the precise location of almost every house in the city, so that the same may be found by night as well as by day. The table, as published in the Directories for 1828-29 and 1830-31, having obtained much approbation, was last year revised and made conformable to the new numbering. The words *right* or *left*, added to the name of a street, points out that the odd numbering is on the *left* or the *right* hand side of that street; and it must be noted, that, at the commencement of a street, the house on the corner is not always the one bearing the first number, which is, in some cases, affixed on the house next to the corner; and in many instances the numbering is so inaccurate as to render it difficult to ascertain the numbers that should be attached to the corner houses. The letters *c. m. p. b.* are intended to designate that at such a corner is either a *church*, a *market*, a *public building*, or a *burial ground*.

Most persons who possess the Directory have perceived and appreciated the great convenience and utility of this Table, still, by many, it is overlooked. Its use may be explained by supposing you desire to find a person who, by the Directory, you perceive keeps an office at 89 South-street: the Vade Mecum shows 88 South-street to be at the upper corner of Burling-slip. Again—wishing to find a person who, by the Directory, you perceive resides at 143 Eldridge-street, turning to the Vade Mecum, you first observe that the odd numbers at 143 Eldridge-street are on the left side of the street, then that the house on the corner of Rivington-street is No. 145, you are therefore instructed that the person to be found resides in the second house south of Rivington-street, on the left hand side of the street going from Division-street.

Twenty-four of the number first mentioned are bonded and supported by the owners of vessels in which they arrived, and the remainder (it may be presumed) from the commutation money received.

Bellevue, Nov. 10th, 1834.

Respectfully submitted,
JAMESON COX, Sup't. A. H.

Philadelphia Paupers.

During the year 1834 admitted into the Alms-house at Philadelphia, 3481 paupers, of which 1805 were foreigners, 1587 being from the British dominions alone.

ANTHRACITE COAL.

The rapid increase in the consumption of anthracite coal is indeed astonishing. The Philadelphia Commercial Herald states that this article was first brought from Lehigh as fuel, to tide water in 1820. The consumption from that period to 1824 was 9,501 tons; from 1824 to 1828 was 144,952; from 1828 to 1832 was 547,370 from 1832 to 1836 was 1,757,807—making the entire quantity in the whole 16 years, 2,469,000 tons, as giving an increased production of the second over the first period of 1600 per cent—of the third period over the second of upwards of 350 do—of the fourth period over the third of more than 345 do. At the same rate of increase the ensuing 4 years, it will amount to more than 6,000,000 tons.

A Law relating to Gaugers in the City of New-York.

Title I. The mayor, aldermen, and commonalty of the city of New-York in common council convened, do ordain as follows :

1. There shall be appointed by the common council, nine competent and proper persons to be known as, and called gaugers, in and for the city of New-York, who shall hold their offices during the pleasure of the said common council.

2. No person shall exercise the office of gauger, by gauging wine, ale, cider, shrub, vinegar, oils, molasses, or *saleable or exciseable liquors*, for any private person or persons, without having received an appointment from the common council, under a penalty of fifty dollars for every such offence.

3. The last preceding section shall not be construed to prevent any public officer appointed by this state from gauging, in the legal discharge of his official duties.

4. It shall be the duty of every gauger, when required, to make a return of the several quarter casks, barrels, hogsheads, and tierces gauged by him, and to mark on each vessel with some durable material in legible figures, the quantity contained therein, together with the initial of the name of the gauger.

5. If any gauger shall neglect to attend in person to the duties of his office, (except in cases of sickness or other disability) or shall ask, demand or receive any greater compensation for his services than is allowed in and by the second title of this law, he shall forfeit and pay for every such offence the sum of fifty dollars

6. The several gaugers who have been appointed by the common council since the first day of May last, shall continue to discharge the office of gaugers in and for the city and county of New-York, during the pleasure of the said common council, and shall be considered amenable to all the provisions of this law.

Title II.

1. The gaugers in and for the city of New-York, shall be entitled to demand and receive for their services the following fees, namely :

For gauging and ullaging each standing cask	50 cents
Ullaging - - - - -	12 1-2 cents
Gauging each lying cask - - - -	12 1-2 cents
Gauging each quarter cask - - -	8 cents
Barrels or half barrels, each - -	8 cents
Ullaging do. - - - - -	4 cents

2. In all cases the fees of the gauger herein before mentioned, shall be paid the one half by the buyer, and the other half by the seller, but the employers shall be liable for the payment thereof, in the first instance.

Passed by the board of aldermen, January 25th, 1836.

Passed by the board of assistants, January 25th, 1836.

Approved by the mayor, February 4th, 1836.
